DETAILED ACTION

Response to Amendment

By amendment filed 11/28/2005, claims 1-27 are cancelled and claims 28-52 are added and pending.

Allowable Subject Matter

Claims 28-52 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed in the prior art a DFB laser comprising an optical cavity including a first active layer extending continuously in the propagation direction and a second active layer, where the first active layer comprises a high reactivity material and the second active layer comprises a low reactivity material as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed 11/28/2005 have been fully considered and are persuasive. Particularly, it is persuasive as noted by applicant that the cited art of record does not include the first and second active regions comprising high and low reactivity materials as claimed. See the response filed 11/28/2005 for more detail.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Menefee whose telephone number is (571) 272-1944. The examiner can normally be reached on M-F 8:30-5.
